

Wolf ATEX LED Torch Range
Operation and Maintenance Instructions
 Please retain - read before use

EC/EU Declaration of Conformity

The Wolf ATEX LED Torch Range meets all relevant provisions of the:-
 a) 94/9/EC Explosive Atmospheres (ATEX Equipment) directive (up to 19th April 2016).
 b) 2014/34/EU Explosive Atmospheres (ATEX Equipment) directive (from 20th April 2016).

By virtue of the issued EC/EU type examination certificate, demonstrating compliance with all relevant harmonised standards and essential health and safety requirements.

Wolf ATEX LED Torches are self contained primary cell powered torches with high power LED light sources, moulded in high impact strength plastic. The TR-40 and TR-40+ are approved as Group I, M2 equipment for mining applications, Group II, Category 2 equipment for use in zone 1 & 2 potentially explosive gases, vapours, and mists where approval code temperature class of specific cells apply and zone 21 & 22 potentially explosive dusts where the torch maximum surface temperature T200°C and IIIB dust group permits.

The TR-45 is approved as Group I, M1 equipment for mining applications, Group II, Category 1 equipment for use in zone 0, 1 & 2 potentially explosive gases, vapours and mists where approval code temperature class of specific cells apply and zone 20, 21 & 22 potentially explosive dusts where the torch maximum surface temperature T200°C and IIIB dust group permits.

Do not open torch in Ex Areas.

If replacing TP-288 the switch must be in the off position to prevent damage to the switch contact.

Do not mix cells, immediately remove used cells to avoid leakage.

Do not use rechargeable cells.

Damaged equipment should be repaired before further use.

When in use ensure lens ring and end cap are screwed up tightly at all times.

Caution - If fitting Polycarbonate lens, check Ex atmospheres for compatibility.

TR-40/TR-40+ Ex I M2/II 2GD Ex ib I Mb/IIIC T3/T4 Gb Zone 1, 21:
 -40°C ≤ T_{as} ≤ +40°C
 Ex ib IIIB T200°C Db IP67

TR-45 Ex I M1/II 1GD Ex ia I Ma/IIIC T3/T4 Ga Zone 0, 20:

 Ex ia IIIB T200°C Da IP67

Notified Body: Baseefa Ltd., Rockhead Business Park, Staden Lane, Buxton, SK17 9JN, UK.
 Notified Body No. 1180

EC/EU Type Examination Certificate:
 Baseefa07ATEX0091X

***X condition** - Dust layers must be prevented from building up on the torch and it must not be left energised and unattended in Zone 20 areas.

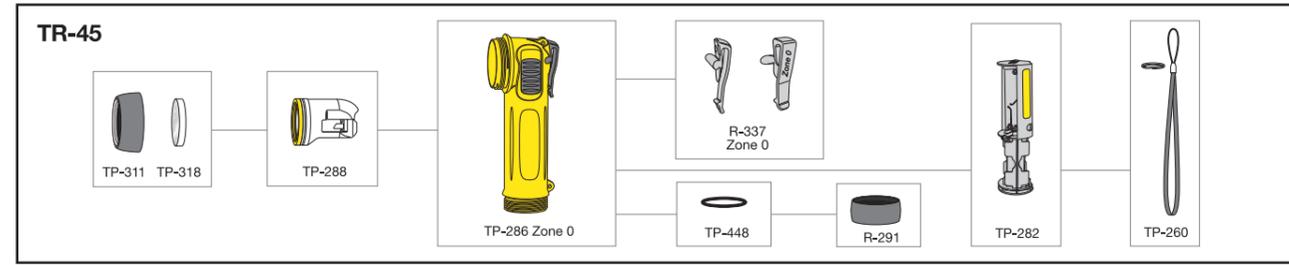

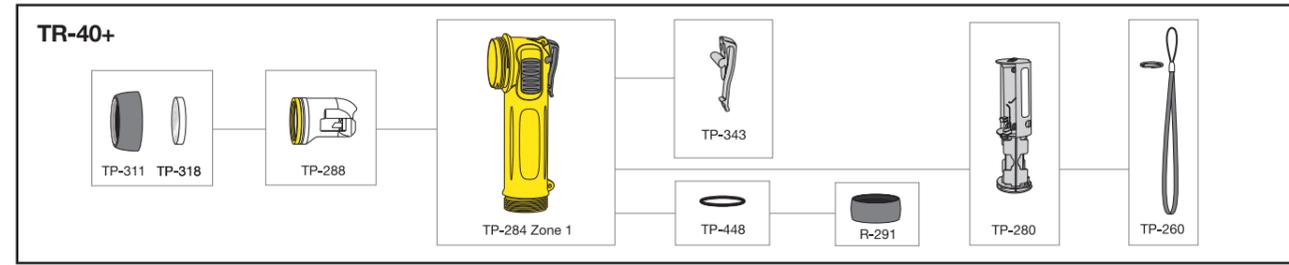

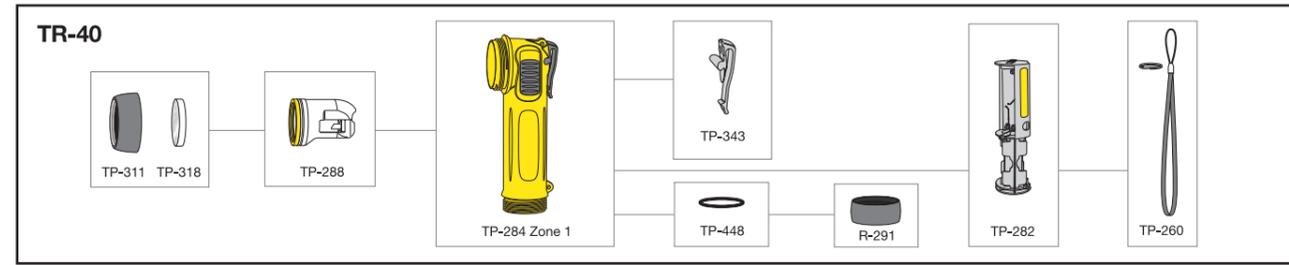

Harmonised Standards Applied:
 EN 60079-0:2012 +A11:2013, EN 60079-11:2012.

Ingress Protection Level: **IP67** to EN60529:1992.

The product is CE marked showing compliance with all relevant EC/EU Directives

Alex Jackson - Managing Director
 Wolf Safety Lamp Company Ltd.

Use only genuine Wolf replacements parts.
 The Wolf Safety Lamp Co. Ltd has a policy of continuous product improvement. Changes in design details may be made without prior notice.

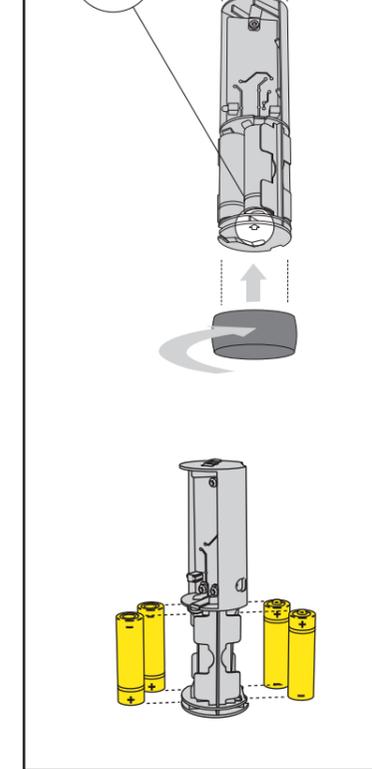

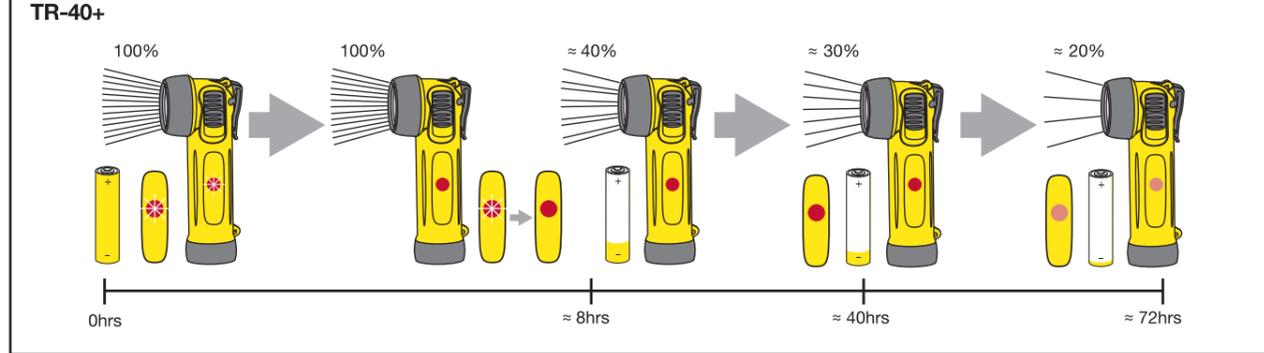

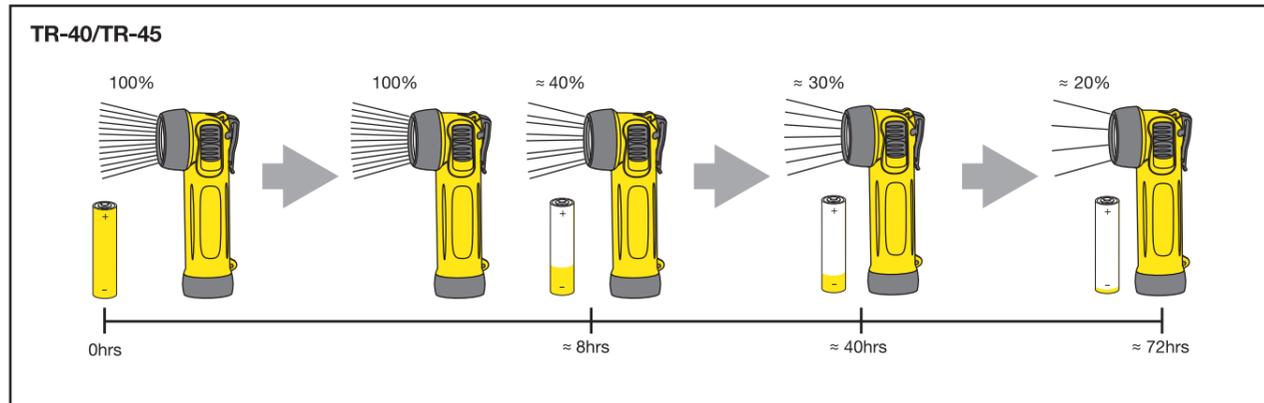

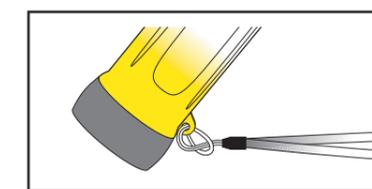

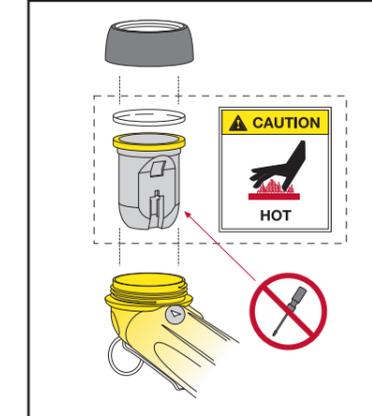

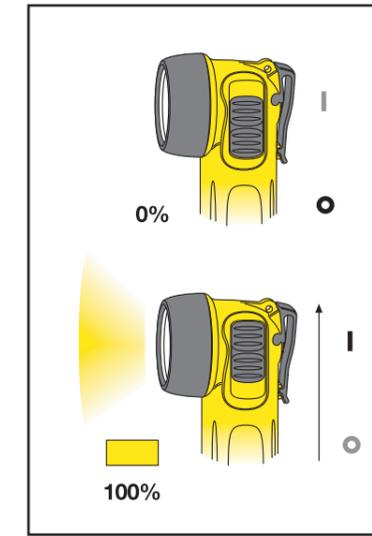

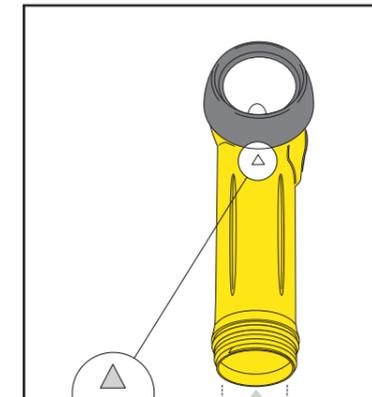

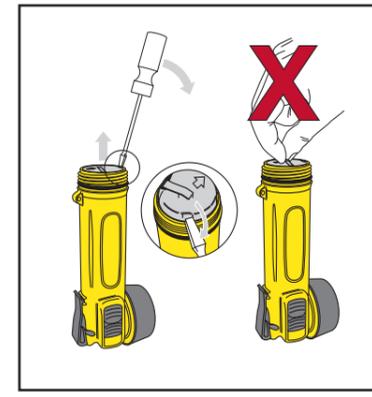

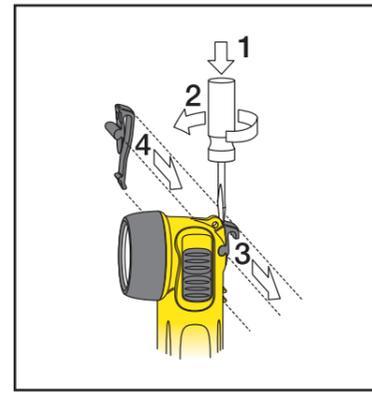

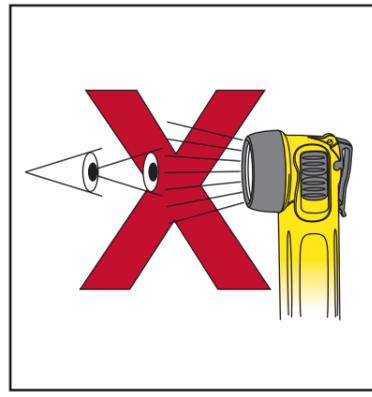

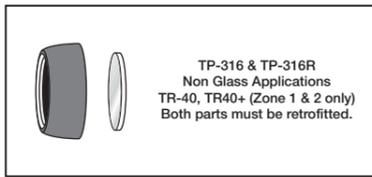

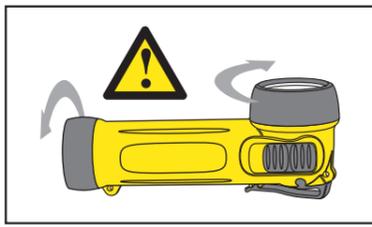

IECEx Scheme Approval
 Cert Number: IECEx BAS 06.0089X
Models: TR-40/TR-40+
